PERSONAL STATEMENT

A Computer Science student (currently in my 5th semester) with a strong passion for mobile application development, particularly in the Flutter ecosystem. I am eager to leverage my growing technical background in software engineering to help companies build functional, user-friendly cross-platform apps.

Throughout my studies, I've strengthened my problem-solving and programming fundamentals, and independently explored Flutter development through personal projects. I am disciplined, detail-oriented, and quick to adapt to new challenges and technologies.

EDUCATION

Cakrawala University – Jakarta, Indonesia Sep 2024 - Present
Bachelor of Computer Science (Semester 5)
GPA 3.78 of 4.00
Relevant Subject: Mobile Computing, Human Computer Interaction.

TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Material widgets, Navigator, Slivers, FutureBuilder, shared_preferences, cached_network_image, JSON serialization.
- **Web Development:** Astro, HTML, CSS, JavaScript, SEO, Google Tag Manager.
- **Tools & Design:** Git, GitHub, Figma, Adobe Creative Cloud, Design Systems.
- **Languages:** Bahasa Indonesia (Native), English (Intermediate).

PROJECTS

Cinema Ticket Booking App – GitHub Jul 2026
Flutter, Dart · Team of 3, Mobile Computing final project

- Built a movie ticketing app covering movie and cinema listings, seat selection, booking and e-ticket history.
- Developed the onboarding and login screens and extended the shared app theme.

Student Data App – GitHub Jun 2026
Flutter, Dart · Team of 3, Mobile Computing mid-term project

- Top contributor (16 of 30 commits) to an app for listing, adding and viewing students.
- Set up the project structure, student model and data layer, the design system (colors, typography), and home page cards with cached network avatars.

Al-Huda Quran App – GitHub May 2026 - Jun 2026
Flutter, Dart · Personal project

- Built a Quran reader with a tabbed home screen (Surah, Para, Page, Hijb) using NestedScrollView, a pinned SliverAppBar and TabBarView.
- Modeled 114 surahs as typed Dart classes loaded from JSON via FutureBuilder.

WORKING EXPERIENCE

Freelance – Remote Dec 2025 - Present
Web Designer & Developer

- Ayunda Baby Spa (Oct - Nov 2026): designed and built a 25-page clinic website with service pages, articles and WhatsApp reservations.
- Haian Lab (Sep - Oct 2026): designed and built a 114-page company site and product catalog for a lab furniture maker, with analytics and WhatsApp leads.
- Kuliah di China (Dec 2025 - Feb 2026): designed and built a 23-page study-abroad consultancy website covering programs, scholarships and free consultations.

PT Teuku Wisnu Management – Jakarta, Indonesia Dec 2025 - Mar 2026
UI/UX Designer

- Designed the Easmatix dashboard and the end-to-end Baker Old POS interface, translating complex backend data into clear, fast transaction flows.
- Built reusable design systems, prototypes and documentation for pixel-perfect handovers to the engineering team.

QurbanAsyik – Jakarta, Indonesia Feb 2025 - Mar 2026
Lead UI/UX Designer

- Led core app feature design from wireframes to prototypes, working with product managers and developers through handover.

ACHIEVEMENTS

- **Game Development Competition GIMJAM 2026 –** Jakarta Mar 2026
  Top 10 position
- **UI/UX Competition Fortex 5.0 –** Jakarta Jan 2025
  Awarded National Finalist position
